SAMAEI AUN WEOR

THE EXPRESSION OF DIVINE MERCY IN THE IRON AGE

Stéphane Zummo, Director of Summum Supremum Sanctuary

In 2024, we celebrate the 70th anniversary of the incarnation of the Logos Samael on Earth. It was on October 27, 1954, that the V.M. Samael Aun Weor, born Victor Manuel Gómez, received his resplendent Dragon of Wisdom, his inner Being, into his soul and consciousness.

What is the significance of the Dragon of Wisdom? The symbolism of the dragon is ancient and not exclusive to the Western world. Indeed, in the East, in ancient Japan and China in particular, alchemical philosophy taught that the dragon symbolized wisdom, strength and longevity.

The Dragon of Wisdom is all this and much more. It is the crown of life, faith, the Word and Christ himself. It is the expression of the highest part of the Sephirotic Tree.

It is written: "In the law we are slaves, but in Christ we are free, because the end of the law is Christ[1]". This phenomenon, the advent of a logos in a human soul, is truly extraordinary, an expression of divine mercy.

THE GREAT LAW: RIGOR AND MERCY

Remember, the Great Law rests on two columns: rigor and mercy. Let's face it, today we're living in a relentless period of karmic rigor and social chaos in the grip of materialism. Everything points to the fact that we're at the end of a cycle, as evidenced by climate change, and no one can deny it. This external chaos mirrors our inner chaos, but it is also - by implication - the expression of the rigor of the law.

Rigor is necessary because it can enable us to pull ourselves together and work, moving forward on the path to self-realization. So it's no coincidence that the V.M. Samael, Master of the Ray of Force, has come to us at this difficult time. He is exactly the expression of mercy, but in rigor; he is the strong, demanding guide we need.

He is essential to this humanity to help us in the awakening; the advent of the Logos Samael is in fact a lightning bolt in the darkness of this world.

After a lifetime of conscious investigation, writing and dissemination, the V.M. Samael has brilliantly extracted the quintessence of Gnostic anthropology, a universal and profound teaching.

On a path strewn with trials and sacrifices, with the willful spirit of a warrior, but animated by the compassion of his inner Christ, he delivered the essential keys to the revolution of the consciousness.

Contemporary Gnosis is unquestionably the central axis of Aquarius; it is the teaching of future generations, the ultimate reference in practical esotericism.

SAMAEI AUN WEOR

THE REVOLUTIONARY

Andrée Bélanger, Director of Summum Supremum Sanctuarium

In the modern world of the 21st century, what makes a man great is undoubtedly his public fame and financial achievements.

What made Samael Aun Weor a Great Man, an outstanding figure in the history of the occult sciences, was not his money or his fame, but his very special mission to spread across the face of the Earth a message of redemption and self-realization which, until his arrival, had remained hermetically coded, reserved for the esoteric elite, so shrouded in mystery were its keys to application.

Few people understood its meaning and functions. Samael Aun Weor revolutionized everything. Through his practical, self-taught teaching, he made it possible for anyone wishing to truly self-discover to access it, and even more, to apply it in everyday life, without having to resort to the monastic reclusion or ascetic hermitage of yesteryear.

His teaching is not his own; it belongs to the universal archetypes that have existed since the dawn of time. This teaching, based on three fundamental keys, 3 very precise axes that enable us to reach our own self-realization, he has incarnated, making himself a pulpit to show us the way.

Self-understanding, self-discovery, spiritual awakening and sharing this knowledge are the foundations of the mysteries he has unveiled.

He revolutionized the world of so-called materialistic science, which is all too often atheistic, seeking incessant proofs without the illumination of conscience, blindly applied on the sole basis of reason and three-dimensional comparisons.

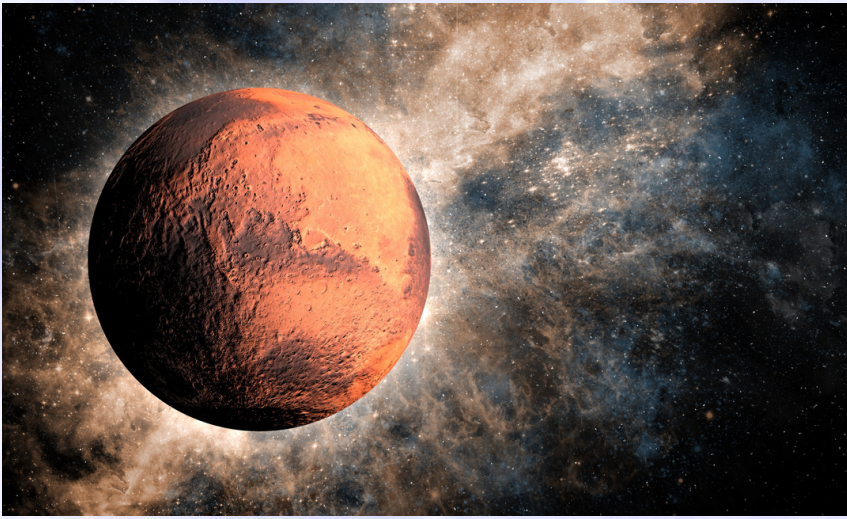

Thus, his theory on the evolution of man and Genesis no longer surprises us; the ape descended from man and not vice versa, as the naturalist Charles Darwin was so determined to impose on us as a panacea in his fight against God as cosmo-creator.

There is not only evolution, but also involution, its opposite. This is the teaching of the Hindu mystics with their Samsara wheel of returns and reincarnations. Everything that goes up must come down; that's the law. Day and night. Rise and fall. Man does not evolve incessantly. The universe knows not only day, but also night; it rests cyclically after cosmic days of activity.

Samael Aun Weor's entire body of work, the Great Work, has been collated and transcribed for the benefit of all, regardless of race, sex or religion.

Dozens of works of rare practical application, lived and received from the Most High. Immensely accessible, frighteningly simple works in which all the great principles of the peoples who have traced the history of our humanity are explained in masterly fashion.

Samael Aun Weor was a Great Guru, a man of science with his mathematical dialectic, a philosopher capable of guiding us through the twists and turns of Cartesian theories and leading us collectively to the gates of the new Age of Aquarius, where intuition is reclaiming its rights and the barriers of elitist knowledge of ancient times have fallen.

Samael Aun Weor, the man, the father and the husband, was a true and venerable man, full of wisdom and compassion. Samael Aun Weor achieved what few of us can ever truly attain. He embodied within himself the full potential of his Innermost Being and awakened all his inner faculties, like Osiris battling to his last breath, "whatever the cost", against his own adversities to achieve his full, intimate self-realization.

To disseminate this teaching, he set up a worldwide movement that will endure through time, so that down the ages humanity, in its quest for happiness and eternity, will always have access to this priceless knowledge that everyone can and must conquer within.

The doors of our Gnostic teaching centers are open to you in several Canadian cities. When can you begin your own inner revolution?

OTTAWA GNOSTIC CONVENTION 2024

Manuel Pineda, Director of the Gnostic Monastery of Canada

On October 27th of next year, 2024, we will be commemorating the 70th anniversary of the spiritual birth of the V. M. Samael Aun Weor. This commemoration will take place in the city of Ottawa, Canada.

The Avatar of Aquarius Samael Aun Weor left a well organized philosophical and spiritual movement whose purpose is the liberation of the human being from this valley of tears through the Initiatic process. This movement is currently being directed by the World Director Mrs. Inmaculada Ugartemendia de Gómez, who was designated by the late Mr. Osiris Gómez, eldest son of Master Samael.

Master of Mysteries and wife of the Founder Samael Aun Weor, Venerable Master Litelantes, remained in the direction after the Avatar's absence in 1977. V.M. Litelantes directed the movement until 1998. Osiris, her eldest son, directed until 2015, and currently Mrs. Inmaculada.

In the great work of the Avatar of Aquarius Samael Aun Weor, the interested person can find an unlimited amount of information that fills the void which many of us carry. We will mention a few examples:

Mysteries and Extraterrestrials

In his book "Gazing at the Mystery", he tells us about a city in the interior of planet Earth in South America called, "The City of the Blue Men", a civilization that arrived from other galaxies and that at present is in constant communication with other extraterrestrial beings. Many other mysteries are revealed in this book.

Alchemy and Religion

The great work of the Avatar has as the basis of its message, the need to work in the mysteries of fire to enter initiation and as a consequence achieve liberation. Only by wisely uniting the sexual mysteries with Religion, which means religare or union with the Self, can we be initiated into the esoteric mysteries.

At this moment the human being is a robot condemned to total slavery; this prison that we carry in our interior composed by 97% of Ego or demons and 3% of consciousness, at the most, is the cause of ignorance, pain and misery.

The American Tibet

The V.M. Samael went into the jungles of Colombia to get to know closely the ancient knowledge that is still held by certain "MAMAS" as they are called in Colombia; such sages have remained linked, connected to the wisdom of Tibet. In ancient times they knew secret passages that connect Colombia and Tibet. Surely for those who have 3% of consciousness this wisdom is not accessible.

The Avatar leaves us a legacy of knowledge with instructions to be applied by those who are sincere and of noble heart. This knowledge is called "ELEMENTOTHERAPY" and teaches us how to reconnect with Mother Nature and in this way find a balance of life and a solution to illnesses and afflictions.

Ottawa Convention October 27th, 2024

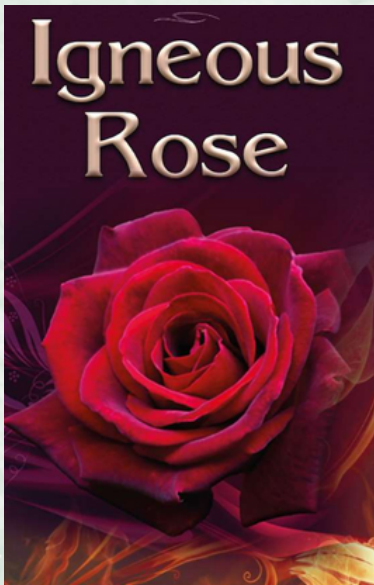

The great work of the Avatar of Aquarius is marvelous and considered a divine gift for this suffering humanity. Come to commemorate the 70th anniversary of the spiritual birth of the Avatar of Aquarius V.M. Samael Aun Weor which took place on October 27th, 1954, and which he recorded in his book Gnosis in the 20th Century.

BOOK

IGNEOUS ROSE

This book smells of the forest, smells of the mountains. We have plucked this book from the flames of the universe, and each of its words is written with burning coals.

We now wish to wrest from the giants of the woods and the innocent children of the water, air, rocks and burning flames, all the secrets of ancient wisdom, to restore esoteric wisdom to the face of the Earth, and initiate the era of Maitreya in the crackle of our flaming powers.

Let us raise our flaming chalice amid the fiery crackling of the Mother Goddess of the world. Agni! Illuminate us! For you I raise my chalice.

QUESTIONS TO MASTER SAMAEL

AFTER GIVING A LECTURE

José Gomez, Central America coordinator

Question : The practice of the death of the ego is very difficult for me. I try to do it, but when I think I've more or less understood one of the Egos, suddenly I don't know if I'm doing it properly. I understand the theoretical part, but as I meditate, as I work to understand the ego, I get confused. Perhaps you could give us some pointers on this.

Answer: Well, frankly, I don't see any difficulty in that, I don't see any problem. You have to observe yourself throughout the day, to see what you find. All of a sudden, you have a fit of anger or rage, and you discover that you have the ego of anger. You have to work at understanding it, at reflecting on it. Try, let's say, to relive that scene of anger, and once you've understood it, then you have to disintegrate it. You concentrate on the Divine Mother Kundalini and implore her... and even cry so that she will finally disintegrate the angry self. How difficult is that? I don't see any difficulty. Do you see any difficulty? I don't!

Question: Master, but there's one thing; there are several Egos that bother us, and it may be that one of them manifests itself violently and another more subtly. Which one should we disintegrate first?

Answer: Well, here, as far as the disintegration of egos is concerned, there must be no preference; the law must be for all, whatever the cost. We work on the smaller and the larger, and both must be burned, you see? Grasp one and grasp the other, don't complicate yourself with the mind. Simplify a little and go ahead, and then we'll see...

Question: Venerable Master, how do you kill the "I's"? If there are so many of them, which one should you pay attention to?

Answer: You've got to go along with what you discover, without breaking your head too much, and get on with it: study it, understand it, and then pray to Divine Mother Kundalini to burn it, and that's it!...

Question : Question: Do we need to know a technique for understanding the ego?

Answer: No, you don't need a technique for that. When you start thinking about, let's say, anything in life, well, you don't need a technique. When you're interested in something, you're interested in it, and if you're interested in knowing why you're angry, you don't need a technique so much; you just want to know (and you're entitled to). So, if you're interested, you'll meditate in such a natural way that you won't even think about it. In other words, we don't think about how we're going to meditate. We're interested in understanding an Ego, and that's all, in knowing why it expresses itself in a certain way and at a certain time, and why it doesn't express itself on other occasions, etc., etc., etc....
